

Susan Striker is

a best-selling author, parent, award-winning teacher, artist and acclaimed educational innovator.

She wrote the Anti-Coloring Book® series, still in print after more than 25 years, a delightful collection of books that provide creative art experiences for children.

She has also written a major educational philosophy book Please Touch (Simon & Schuster) which deals with keeping creativity alive and active in children.

Young at Art, her most recent book, helps others use her unique teaching methods to encourage creative thinking. Young at Art classes make her exciting philosophy come alive.

Susan Striker was named **Distinguished Teacher** in Greenwich Public Schools and this series of classes was awarded Connecticut's "**Celebration of Excellence**"

for creativity in the classroom, Ms. Striker also won the

**George M. Estabrook Award** for distinguished service in her career.

For more information, call Sue at 203-261-4567 or contact [susan@SusanStriker.com](mailto:susan@SusanStriker.com)

Now you can bring the award-winning

program to your school, museum or day care center!

All of the activities are based on a theme or art concept

Our snack gives us a hint about what color, shape or idea our class will be about.

We listen to a story, play games, dance dances and sing songs based on the theme.

Then we do a painting in our special color or shape.

We do a drawing

some pasting

and a three dimensional project

## Preschool and Kindergarten Art Classes

Our techniques are the subject of the best-selling book **Young at Art, Teaching Toddlers Self Expression, Problem Solving Skills, and Appreciation for Art**, by Susan Striker (Henry

We do a drawing, some pasting, a painting, make prints and do a three dimensional project.

We are all winners!

Holt). We begin with a snack which gives us a hint about what color shape or idea our class will be about. We listen to a story, play games, dance dances and sing songs based on the theme. Then we do a series of multi media art project in our special color, shape, or art concept.

In **Color Magic** we focus on one color concept and explore it in several different ways in order to address children's different styles of learning and multiple intelligence. All classes begin with songs, games, stories, a snack, and include drawing, painting, printing and sculpture experiences that revolve around a theme.

**Color Wizardry** is a master color class and includes the "magic" of advanced color mixing skills.

In **Ship Shapes** we use kinesthetic activity, songs, games, literature and multi-media art experiences to bring a sense of wonder to how lines transform themselves into shapes, which then becomes pictures and words.

**Mind Bogglers** introduces mind-boggling themes and concepts! Transparency and reflections are just some of the exciting vehicles we use to integrate the creative multi-media art form of expression into all aspects of a child's life.

is proud to announce that we are offering a license and will train your staff and bring all of the advantages of this award-winning and innovative art program to your students.

At **Young at Art®** we believe that children's art is not a frill, not merely "charming," but the very foundation upon which later reading, writing and drawing are built. The early experiences children have while they are creating art have a profound impact on their approach to learning later on.

**Creative activity keeps the spark of curiosity alive!**

From age appropriate art, children can learn how to think critically, solve problems, and express themselves.

As Albert Einstein said:

**"Imagination is more important than knowledge"**
